

New England Biolabs Certificate of Analysis

Product Name: NEBNext UltraShear™
 Catalog Number: M7634S
 Packaging Lot Number: 10212291
 Expiration Date: 09/2024
 Storage Temperature: -20°C
 Specification Version: PS-M7634S/L/G v1.0

NEBNext UltraShear™ Component List			
NEB Part Number	Component Description	Lot Number	Individual QC Result
M7634SVIAL	NEBNext UltraShear™	10199826	Pass
B9042SVIAL	NEBNext UltraShear™ Reaction Buffer	10199827	Pass
B1079SVIAL	500mM DTT	10199828	Pass

Assay Name/Specification	Lot # 10212291
<p>Functional Testing (EM-seq Library Construction) Each set of NEBNext UltraShear™ reagents is functionally tested and compared to the previous lot through construction of NEBNext® EM-seq libraries made from genomic DNA and DNA controls (CpG methylated pUC19 and unmethylated Lambda). The NEBNext® EM-seq kit's minimum and maximum DNA input requirements are used to make libraries that are sequenced on the same Illumina® flow cell. Library assessment is based on metrics including library yields, library size, GC bias, insert size, and the percent 5mC/5hmC detected for CpG, CHG, CHH contexts within the genomic DNA and internal controls.</p>	Pass

This product has been tested and shown to be in compliance with all specifications.
